

# SEVENTEENTH NATIONAL CONFERENCE ON COMMUNICATIONS

28-30 January 2011. Indian Institute of Science, Bangalore

The Seventeenth National Conference on Communications (NCC 2011) will be held at the Indian Institute of Science (IISc), Bangalore during 28-30 January 2011. The conference will feature three symposia in the following areas:

## COMMUNICATIONS

## NETWORKS

## SIGNAL PROCESSING

Previously unpublished contributions from a broad range of topics in these areas are solicited, including (but not limited to) the following:

Communication theory and systems Information theory Coding theory Mobile, wireless and broadband communications Optical communications RF, Microwave communications Antennas and propagation Satellite communications VLSI for communications Cognitive radio and cooperative communication Green communications	Next generation networks Optical networks and systems Sensor networks Ad hoc networks Wireless and wireline networks Vehicular networks Security Networks and services management Performance analysis Complex networks Biological networks	Signal processing for communications Image, video signal processing, and computer vision Multimedia applications DSP algorithms and architectures Speech and audio processing Biomedical applications Computational and statistical methods Language identification Machine learning, pattern analysis, and classification Large dimensional signal processing Compressive sensing and sparse signal recovery
