

Oral Presentation

The duration of a presentation is approximately 15 minutes, of which 12 minutes may be used for presentation itself and 3 minutes may be used to answer questions from audience.

A LCD projector & computer will be available in every session room for regular presentations. The LCD projector also has a VGA connection. Authors bringing their own laptops will be able to connect directly to the projector if they like.

It is strongly recommended that the presenters bring along their presentation in memory sticks. Files may be uploaded in the computers in the lecture room during the breaks between sessions.

General suggestions :

- Try not to exceed 20 words per slide
- All fonts should be at least 18 point or higher
- Leave sufficient space between lines

Poster Presentation

A large number of posters will be exhibited in the poster session of the conference. To have a smooth run of the session, it is essential that the presenter puts up his/her posters within the first five minutes of the session. The size of the poster panel available to the presenter : **2.5 ft (H) x 3.5 ft (W)**. The presenter is free to choose a single, full sized poster or a collection of several small sized posters (e.g., A4 sized papers) that fit within the given area. Tapes / pins will be available for putting up the posters. The posters will be classified in three broad categories, namely, communications, signal processing and networking. There will be three separate poster zones accordingly. The presenter's poster will be enlisted on the panel in respective poster area.
